

NOTICE TO VALUED CUSTOMERS

Effective Immediately -- The sale of vehicles with tampered or improper emissions equipment is strictly prohibited at Manheim New Jersey and Manheim New York Metro Skyline.

The New Jersey Department of Environmental Protection ("**NJDEP**") issued an enforcement bulletin and it is now strictly enforcing laws against (1) removing or altering emissions controls on any vehicle and (2) selling, leasing or offering for sale or lease a tampered vehicle. The NJDEP has placed parties on notice that violations of the rule could result in penalties of up to the maximum penalty of \$30,000.00 per offense.

Consistent with Manheim's Terms and Conditions, Manheim reserves the right to seek indemnification from any seller for any and all claims, losses and penalties or other liabilities arising out of or relating to the sale at a Manheim auction of any vehicles with tampered or non-compliant emissions control equipment. Copies of the NJDEP's Compliance Advisory Enforcement Alert are available at both Manheim locations in New Jersey.

You should consult with your attorney about any specific compliance issues or contact the NJDEP at the number provided on its Enforcement Alert.
